D-PRIME FINGERJOINT PINE FINGERJOINT T&G

"D" Prime Pine products are perfect for a smooth finish material often used for base trim, casing, ceiling & wall paneling and cabinets. Disdero Lumber stocks 16' primed finger-jointed S4S boards in many sizes accompanied by a reversible T&G paneling for two decorative options. Our primed Pine is manufactured from a combination of clear Radiata & Ponderosa Pine using a water based primer and a superior NAtype 1 exterior adhesive.

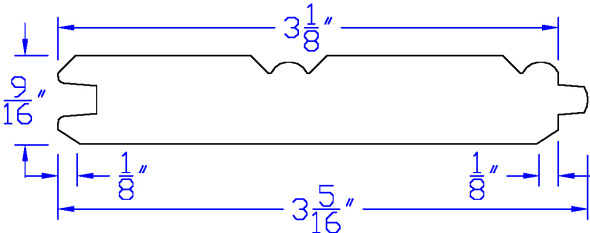

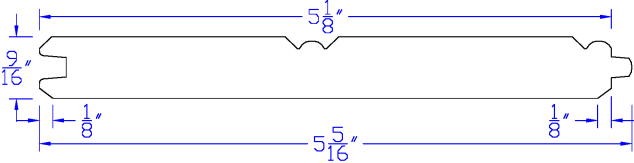

"D" Prime Pine is manufactured from a combination of Radiata & Ponderosa Pine

"D" Prime Pine is engineered and finger jointed with a superior formaldehyde free type 1 exterior adhesive.

"D" Prime Pine is primed with a water based primer

We stock the following D-Prime Fingerjoint Pine products and can help you with your special requirements. Please contact us for further information.
